Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: During the interview availability of the claims over the prior art of record was discussed. Agreed, the prior art of record does not teach "determining, based on a calling party identifier in the signaling message, whether the communication initiator has previously been notified not to initiate communications with the communication recipient", and that said automatically generated complaint registration message is conducted "in response to determining that the communication initiator has been previously notified not to initiate communications with the communication recipient". Furthermore, changes to the claim language were discussed in order to clarify patentable subject matter and avoid possible issues under 35 USC 112. Finally, the Representative gave authorization for the Examiner Amendment to thereby place the claims into condition of allowance.
